

Dental Benefit Summary

About Your Benefits:

Good oral hygiene is important, not only for looks, but for general health as well. A routine dental examination can detect symptoms of more than 125 diseases, including heart disease, diabetes, anemia, stomach ulcers, osteoporosis and kidney disease. Regular check ups and cleanings can save you the pain and expense of future problems. Using your dental insurance for regular dental check-ups can improve your health. Your dental insurance can also help save you money if more serious dental treatments are needed.

With your **Ind 1000 Value** plan, you can visit any dentist; but you pay less out-of-pocket when you choose a PPO dentist.

This is only a partial list of dental services. Your certificate of benefits will show exactly what is covered and excluded. **Crowns, Inlays, Onlays and Labial Veneers are covered only when needed because of decay or injury and only when the tooth cannot be restored with amalgam or composite filling material. When Orthodontia coverage is for "Child(ren)" only, the orthodontic appliance must be placed prior to the age of 19; If full-time status is required by your plan in order to remain insured after a certain age; then orthodontic maintenance may continue as long as full-time student status is maintained. If Orthodontia coverage is for "Adults and Child(ren)" this limitation does not apply. The total number of cleanings and periodontal maintenance procedures are combined in a 12 month period. *General Anesthesia – restrictions apply. ‡Fillings – restrictions may apply to composite fillings.
